LIQUID FENCE
Rabbit Repellent
The Liquid Fence Story
Clark Kaskie, a retired chemical engineer, moved to the Pocono Mountains of Pennsylvania in 1980. There he became an avid gardener. It took no time to see his plants were being eaten by the "native critters". He tried everything from homemade remedies to costly commercial products to try to stop the damage the animals were causing, but nothing worked. Clark decided to make his own repellent that would not only really work, but be safe for the environment. After years of experimenting, he finally had success! When he shared it with his friends, they told him it could be the savior of many frustrated gardeners and convinced him to market it. His wife, Rosemary, said, "Clark, this works just like a liquid fence". The rest is history!
Rain Resistant
100% Money-back Guarantee
If, for any reason, you are not 100% satisfied, Liquid Fence® Co. will refund the suggested retail price or replace this product. Liquid Fence® Co. will not be liable for any damage, direct or indirect. Refund or replacement of product is our only obligation.

3 Easy steps to guaranteed protection from persistant rabbits!
Directions:
1 SHAKE WELL before each use!
2 Adjust nozzle for desired spray pattern.
3 Apply liberally to ornamental plants and their perimeter during a dry period. Repeat process 1 week later and then approximately once per month thereafter. Areas where feeding pressure from rabbits is intense, spray Liquid Fence® Dual Action Rabbit Repellent once a week for 3 weeks and then approximately once per month thereafter. This will "train" the rabbits to avoid your yard! Please note: when using Liquid Fence you may notice an odor, however once it dries, the odor will not be noticeable to humans, but still very noticeable to animals.
How it works... Most rabbits can be repelled with scent alone. Because of the high volume of young rabbits and their voracious appetites, high density rabbit populations can be an extremely persistent problem. That's why we've developed a dual-action formula that repels with both scent and taste – a guaranteed-effective, one-two punch to fight extreme rabbit problems! Professional landscapers and commercial growers have already discovered... Liquid Fence stops rabbit damage, naturally!
To attach sprayer...
1. Slide down product label. Remove sprayer.
2. Grasp red hose tip and pull coiled tube out of sprayer-head until fully extended.
3. Without removing cap from bottle, remove cap sticker and flip-cap, exposing opening.
4. Firmly insert red hose tip into cap opening until it "snaps".
To spray...
1. Adjust nozzle to spray or stream.
2. To prime sprayer, direct nozzle toward surface to be treated and squeeze trigger several times to draw liquid up through length of tube. Note: Keeping sprayer head below the level of liquid in bottle will make priming easier.
After use...
Turn nozzle to OFF (X) position.
Active Ingredients: Putrescent Whole Egg Solids 0.80%, Garlic 0.29%, Sodium Lauryl Sulfate 0.18%, Thyme Oil 0.15%, Potassium Sorbate 0.07%, Cinnamon Oil 0.03%
Other Ingredients: 98.48% (Water, Paprika, Xanthan Gum)
KEEP OUT OF REACH OF CHILDREN
CAUTIONARY INFORMATION: This product may be harmful if swallowed. Avoid contact with eyes. If contact with eyes occurs, immediately flush with plenty of water. Seek medical attention if either occurs.
STORAGE AND DISPOSAL: Do not contaminate water, food or feed by storage or disposal. STORAGE: Store in original container, in a cool, dry area inaccessible to children and pets. Protect from heat and freezing. Store between 40° - 90°F. Keep containers closed tightly to prevent evaporation. If spillage occurs, dilute with water and flush away. CONTAINER DISPOSAL: Do not reuse empty container. Dispose of empty container as required by municipal or local laws.
LabelRev-12-12-SC
Fórmula avanzada de repelencia dual para problemas persistentes /alta población de conejos y conejos bebés difíciles de repeler
• Listo para usarse • Ecológico: no daña las plantas ni los animales
• Para jardines ornamentales de paisajismo,flores, arbustos, árboles y enredaderas • Repele con el aroma y sabor
• Poder residual y resistente a la lluvia
• Cubre aproximadamente 2,000 pies cuadrados
INDICACIONES DE USO: 1. ¡AGÍTESE BIEN antes de cada uso! 2. Ajuste la boquilla para el patrón de rociado deseado. 3. Aplique abundantemente a las plantas y sus alrededores durante un periodo seco. Repita el proceso 1 semana después y a partir de entonces, aproximadamente una vez por mes. En áreas donde los conejos suelen comer mucho, rocíe Repelente para conejos de acción dual Liquid Fence una vez a la semana durante 3 semanas y a partir de entonces, aproximadamente una vez por mes. ¡Esto "entrenará" a los animales para no acercarse a su jardín! Por favor tome nota: Cuando use Liquid Fence usted notará un fuerte olor, sin embargo cuando éste se seque, el olor no será perceptible para humanos, pero sí muy perceptible para los animales.
Para fijar el rociador: 1. Deslice la etiqueta del producto hacia abajo. Retire el rociador. 2. Sujete la punta de la manguera roja y jale el tubo enrollado para retirarlo del cabezal del rociador hasta que esté completamente extendido. 3. Sin retirar la tapa de la botella, retire el adhesivo de la tapa y la tapa que se levanta para dejar la abertura al descubierto. 4. Inserte firmemente la punta de la manguera roja dentro de la abertura de la tapa hasta que "encaje".
Para rociar: 1. Ajuste la boquilla para rocío o chorro. 2. Para cebar el rociador, dirija la boquilla hacia la superficie que se va a tratar y presione el gatillo varias veces para que el líquido suba por todo el tubo. Nota: Si mantiene el cabezal del rociador por debajo del nivel del líquido en la botella, el cebado será más fácil. Después de usar... Gire la boquilla a la posición de apagado (X).
MANTÉNGASE FUERA DEL ALCANCE DE LOS NIÑOS INFORMACIÓN DE PRECAUCIÓN: Este producto puede ser dañino si se traga. Evite el contacto con los ojos. Si ocurre contacto con los ojos, lávelos inmediatamente con abundante agua. Busque atención médica si esto ocurre.
ALMACENAMIENTO Y ELIMINACIÓN: No contamine agua, comida ni alimentos al almacenar o eliminar el producto.
ALMACENAMIENTO: Almacénese en su envase original, en un lugar fresco y seco e inaccesible para los niños y las mascotas. Protéjalo del calor y del congelamiento. Almacénelo entre 4,4° C - 32,2° C. Mantenga los envases bien cerrados para evitar su evaporación. Si ocurre un derrame, dilúyalo con agua y lávelo para eliminarlo.
ELIMINACIÓN DEL ENVASE: No vuelva a usar envases vacíos. Deseche el envase según las leyes municipales o locales en su área.
SATISFACCIÓN GARANTIZADA: Si por alguna razón usted no está 100% satisfecho, Liquid Fence Co. le reembolsará el precio de venta al detalle sugerido, o le reemplazará el producto. Liquid Fence Co. no será responsable por ningún daño, directo ni incidental. El reembolso o reemplazo es nuestra única obligación.
